OUR FOCUS

***Cleaning up trash.
Planting Trees.
Learning Web design.

Promoting healthy low cost healthy food.
Helping people start home farms.***

If you are going to fix the earth as a part time job, you deserve to be paid at least 250TWD per hour. The normal length of our gigs is 4 hours. So, 1000TWD for 4 hours work.

*

People think there's not enough money in the world for benevolent projects. This is not 100% true. There is actually plenty of money waiting for people who want to fix the world. The real issue is, there's not enough people with initiative. Potential donors are frustrated there are not enough good projects put there. Investors don't normally tell people they have spare money. They're mysterious. Like, uh... like this guy:

*Once we get our act together, silent rich investors may start to invest.
It's worth a try.*

WHY DO YOU NEED US?

*Why can't you go and crowdfund on your own. Sure you can do that.
We just want to make things faster and easier for people. If more of
us learn crowdfunding skills, we can create decent jobs, and fix
Taiwan faster.*
